Variance	(0.099)	(0.143)	0.031	0.211	-

a. FTE Reduction in each of Corporate Controller's Division, Financial Planning and Review, and Materials Management. Impact includes: Annual capital review/capital closure process will no longer be performed, Annual Closed Projects will no longer be reported to SPC Finance, ability to troubleshoot and undertake Peoplesoft Finance system enhancements will be reduced and limited.

b. Eliminating the membership in MBNCanada and the FTE associated with performance reporting will cease the publishing of Volume 1 (effective 2022 budget). This would reduce the department's ability to provide relevant context for budget decision making and report on the city's performance in terms of benchmarking against other municipalities. Also, the compilation and reporting of the citizen satisfaction survey will have to be transferred to another department (potentially Customer Service and Communications).

c. Increasing the recoveries from Reserves by 5 basis points, from 40 basis points to 45 basis points.

MBN Canada

Fig. 17.1 In-House Legal Operating Cost per \$1,000 Municipal Operating and Capital Expenditures

This measure represents the operating cost to provide in-house legal services. Council direction on budgets, tax rates, collective bargaining, etc., will impact the total municipal spend, which in turn will impact the reported total municipal operating and capital expenditures. This can cause fluctuations in year-over-over results, even if total in-house costs remain stable.
