

SASKATCHEWAN AVENUE AT STURGEON CREEK BRIDGE CONSTRUCTION

BRIDGE CONSTRUCTION & ASSOCIATED WORKS

The scope of work will include replacement of the Saskatchewan Avenue Culvert with a new three span bridge, and road reconstruction between Cavalier Drive and Hamilton Ave.

CONSTRUCTION SCHEDULE

The City's Contractor, Graham Construction and Engineering LP., will begin work in early December 2017 and the work is expected to be complete by end of October 2018. Saskatchewan Avenue will be closed at Sturgeon Creek for the duration of construction. Traffic detours will be implemented in early December and will stay in place during the course of the project. Construction work will be carried out between the hours of 7:00 a.m. and 10:00 p.m. Monday to Friday and as required between 9:00 a.m. and 9:00 p.m. on Saturdays, Sundays or holidays.

TRAFFIC MANAGEMENT

A traffic staging plan was developed to help mitigate the impact of construction on businesses and residents. The staging plan is included for information, which illustrates the traffic phasing and detours for vehicles and pedestrians during each phase of construction. Signage will be installed to clarify permitted turning movements during construction. Saskatchewan Avenue between Acheson Drive and Cavalier Drive will be closed to vehicular traffic for the project duration. Saskatchewan Avenue between Hamilton Avenue and Cavalier Drive will be closed to vehicular traffic beginning in spring 2018.

STURGEON CREEK GREENWAY TRAIL CLOSURES

Access to Saskatchewan Avenue from the Sturgeon Creek Greenway Trail paths will be closed for the duration of construction.
